

21 July 1952

MEMORANDUM FOR: [redacted]  
Office of Communications

SUBJECT: Parking Space

1. As I told you on the phone, your letter of 20 June to President Truman was forwarded by his secretary to General Smith and reached his secretary on 17 July. The letter was referred to the undersigned because this is the office in this Agency to which matters which do not receive adequate attention through the normal channels should be sent.

2. I have taken this matter up with [redacted] who has just advised me that you have been assigned a parking place where the minimum amount of walking time will be required.

Stuart Hedden  
Inspector General
